

LEAD
THE
WORLD

The roar and rush of H'ness gets future-ready with 2025 OBD-2B norms. Explore new roads or revisit the ones taken before with the aggressive stance, classic look and bold design of your CB350 H'ness.

Assist Slipper Clutch

Clutch the load.

An assist function for smooth clutch operations and slipper function prevent rear wheel hopping while down shifting.

Honda RoadSync

Stay connected with the roads.

Control your motorcycle from the handlebars with Honda RoadSync via Honda Smartphone Voice Control system.

New-age Headlight

Techy new look that brightens up your every ride.

Advanced Analogue Digital Metre

Bolder font style for better readability.

E20 compliant

Promoting cleaner and more sustainable mobility supporting greener future.

Smoked Taillight Lamp

Leave a trail of thrill with full LED tail lamp and winkers.

Roaring Exhaust Note

When in doubt, thump it out.

CB350 H'ness emits a crisp throb that results in a rich and thumpy exhaust note.

Powerful 350 cc Engine

Power up your ride.

The mighty 350 cc air-cooled, 4-stroke OHC single-cylinder engine is here for smooth acceleration and elevating the joy of riding.

Split Seat

Comfort meets style.

Split seat adds classic style without compromising on comfort of both the riders.

ESS (Emergency Stop Signal)

Let there be no brake to your safety.

In case of emergency braking, the ESS, or Emergency Stop Signal, automatically and rapidly flashes the turn indicators on both sides to alert the following vehicle and, thus decreases the danger of being rear-ended.

Honda Selectable Torque Control (HSTC)

Command your H'ness.

Get more confidence on the road with HSTC that maintains traction between tyre and road.

Dual Channel ABS

Always in control.

CB350 H'ness is equipped with a dual channel ABS, a front 310 mm large disc brake together with 240 mm rear disc brake. ABS prevents wheels from locking up when brakes are applied in an emergency situation.

Hazard Switch

Safety in every flash.

Flashing indicator lights are an important safety feature for emergency stops and low visibility conditions.

Side Stand with Engine Inhibitor

Stand out, ride out.

No looking down to check your side stand, a glance on your metre is enough. Additionally, the inhibitor function restricts the engine from starting if the side stand is down.
